

# NCS Varsity 5 KM @ Naples Community Park

- - - - =modified loop

< > two way sections

Loop 1 flat

Loop 2 terrain w/4 bridges

**Loop 1** leaves the park and runs on DEC land - flat, double wide track, along the creek. The first half will be wet. Modifieds will not run this loop - they will circle the baseball field and come back for Loop 2.

**Loop 2** comes back through the start -this is the section your athletes should preview before the race- it is undulating terrain traversing a frisbee golf course and a foot path. Some wide sections, some trail sections. Please note that there are 5 bridges - each bridge has roofing shingles for traction and should be good. There are twists and turn.

The course will be marked with flags & paint.
